DESPERADO

Economy and Value Editions

The new Desperado case supplements SHARKOON's well known and successful PC case line-up. The Desperado is a compact and well designed Midi-ATX case with four external optical drive bays and room for one 3.5" device in the front. Inside the case there is room for up to four hard drives.

Like the other cases from SHARKOON, the Desperado is available in both Value and Economy editions. The Economy Edition comes without pre-installed cooling fans, and allows users to design their own cooling setup. The Value Edition comes with a 250mm fan in the side of the case and includes a fan regulator.

The front of the cases has an I/O panel (2x USB 2.0, line-out and mic-in). At the back of the case there is room for up to seven expansion cards. The Desperado case is available in black.
